Absolutes/col percents

Table 9

Q.4 In fact, if you are under 16 and caught with a knife you can expect a caution and referral to a knife education scheme for your first offence. Parents of young offenders will also be notified and may receive parenting orders to ensure they play their part in changing their child's behaviour. If someone under 16 goes on to re-offend they are likely to be prosecuted.

With this in mind, how strongly do you agree or disagree with each of the following statements?

More young people should hear firsthand experiences of knife crime from reformed young offenders
