A research report from the UK Children Go Online project
www.children-go-online.net

April 2005

Acknowledgments

This research was funded by an Economic and Social Research Council grant (RES-335-25-0008) as part of the 'e-Society' Programme, with co-funding from AOL UK, BSC, Childnet-International, Citizens Online, ITC and Ofcom.

We thank the project's Advisory Panel for their support: Camille de Stempel, Karin Sieger and Simon Kinnersley (AOL UK), Andrea Millwood Hargrave (BSC and ITC), Nigel Williams, Stephen Carrick-Davies and Mary Louise Morris (Childnet-International), John Fisher and Gail Bradbrook (Citizens Online), Alison Preston, Robin Blake and Andrew Carruthers (Ofcom) and John Carr (NCH and CHIS).

We also thank the project's Children's Panel for their discussions and guidance which informed the design and interpretation of the survey. Thanks to Bridget Williams, Susan Kay and Taj Sohal from BMRB and to Ellen Helsper and Peter Lunt for their contributions to the analysis and interpretation of the findings reported here. And, last but not least, thanks to the many children, young people, parents and teachers who generously gave us their time to make this research possible.
