Poll of Bulgarians

March-April 2013

**Editorial note from the BBC:** When looking at the detailed tables that accompany these polls, it is important to look not just at the percentages but at the total number of respondents who answer each question. At times this number will comprise the entire sample, a large figure that has been designed to reflect the views of the entire population. However, at other times, the number of people responding to individual questions may be as low as 20 and certainly fewer than 100. The margin of error increases significantly as the number of people answering any question diminishes.
General Intentions Regard Going to Work in an EU Country
Last 5-year intention to move to another country, member of EU

Q1. In the last 5 years, have you considered moving to live and work in another country member of the EU?

Yes 37%
No 63%

Base: total sample, N=1014
EU countries considered for moving in the last 5 years

Q2. What EU countries?
If you have more variants, please rank them based on the importance you have accorded.

Base: respondents thinking to move to another EU country in the last 5 years, N=366
